

FUTURA ECO SPECIAL

Cultivator with hydraulic widening, 30x30 loop springs with releasable rods and cage roller

Possibility to increase or decrease the number of springs for adapting to different widths of the vineyards. It has a quick release system on springs to eliminate

On demand: power take-off high (for rubber-tyred tractors), low (for crawler tractors) or with pumps directly connected to the tractor power take-off (for rubber-tyred and crawler tractors). If it is equipped with ascent and descent system, pumps are directly connected to the tractor power take-off

Kit including multiplier double pump, hoses, filter, tank and oil

Double heat exchanger with double thermostat

Electronic control unit with general alarm

55 cm RH and LH side inter-row blades with double channel joystick for manual emergency blade return

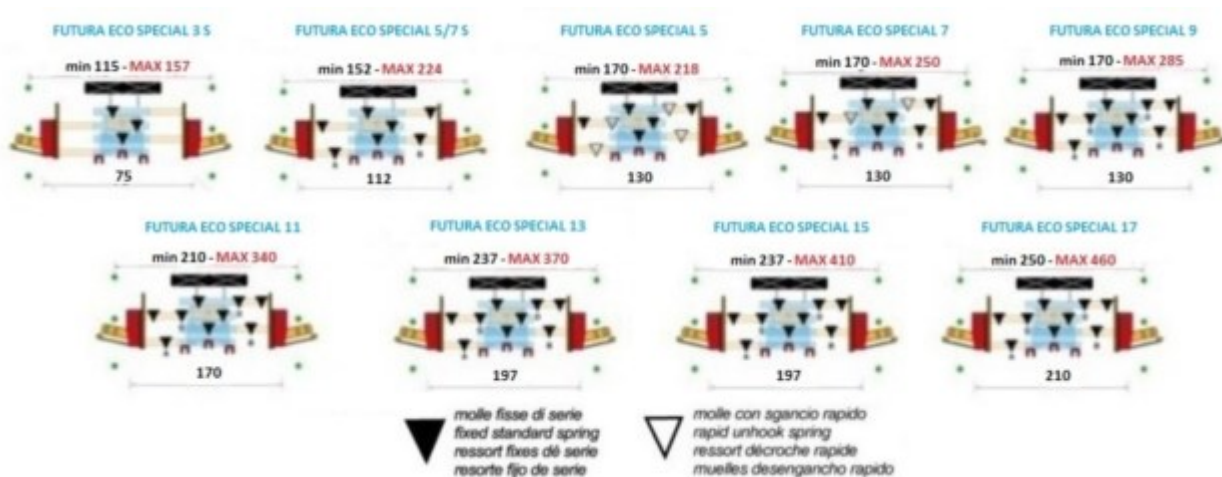

Bulldozer-like tilling spur

4,5 - 21 - 26 cm ploughshares (to specify during the order)

Rear roller mechanical adjustment (each)

RH and LH side widening with 4 quick tractor couplings
