

Trailer length:

7 350 mm / 8 860 mm (including drawbar)

Trailer width:

2 550 mm

Total load:

18 000 kg / 24 000 kg

Dead weight:

od 4 200 kg / 5 200 kg
(depends on tipping body shaping design)

Axles:

BPW / SAF 2x9 t, R 22,5" / 3 x 9 t R 22,5"

Spring:

Air spring (mechanic)

Tyres:

385/65 R 22,5" with steel discs

Brake system:

EBS+ 4S/3M WABCO / HALDEX, including RSS

Shaping design:

S3 - Three-sides tipper:

Loading volume: from 6 m³ (according to customers request)

Length: from 5 000 mm

Hydraulic: Hydraulic cylinder HYVA / PENTA

Used Materials: Steel ST 52.3, HARDOX 450, DOMEX S 700 MC, AL

Shaping design:

V - platform superstructure

Length: from 5 000 mm

Used materials: Steel ST 52.3, HARDOX 450, sidewalls of aluminium

Accessories for extra charge:

- disk brakes
- infocenter SMARTBOARD (counter of driven kilometers, electronic load measuring)
- tarpaulin cover system
- change of material thickness
- change of tipping body shaping design
